

Energetek brings a unique vision and expertise to utility management, cost control, and business efficiency. We provide custom energy solutions that lower costs for our clients and protect them from market movement. Our job exceeds simply representing you in the marketplace. We also provide the market knowledge needed to provide additional energy options suited for your locations.

Certified Woman and Minority Owned Business  
Energy Brokerage and Commodity Trading Advisory

## ENERGY PROCUREMENT

Strategized electric and natural gas supply contracts through a competitive bidding process. Energetek manages your energy portfolio, negotiates contract terms, and provides ongoing market recommendations.

## ON-SITE GENERATION

Whether used for emergency backup, DR programs, or extended full facility use, we provide generation options customized to your needs. Energetek brings a bevy of vetted generation providers and financial options to the table, while project managing through completion.

## DEMAND RESPONSE

Improve site resiliency with comprehensive DR programs. Energetek conducts a demand response bid, similar to the procurement process, to secure the best DR program for your operations.

## SUSTAINABILITY SOLUTIONS

For national and international portfolios, Etek creates a phase-by-phase plan based on the availability of renewable programs, energy market trends, and financial viability. Energetek provides REC and green energy agreements, VPPAs, on-site renewable generation, carbon offsetting, and more.

## MANDATORY BENCHMARKING

Different cities and states require large commercial businesses and properties to record and report their energy consumption annually. Energetek handles all your benchmarking needs.

## ENERGY DECISION SOFTWARE

Multi-site commodity platform that provides real-time utility data. EDS can be used for bill pay, environmental reporting, peak capacity forecasting, demand-side management, and more. Clients can also track other utilities such as: recycling, sewage, telecommunications, waste, and water.

- Live Reverse Auction
- DCA/State-approved Pricing Desk
- Wholesale and Retail Energy License
